

SAFETY DATA SHEET

Tru-Look Integrity Fortifier SDS No. TLIF-001 | Version 1.0 | Revision Date: June 22, 2026

SECTION 1: IDENTIFICATION

Product Name	Tru-Look Integrity Fortifier
Product Codes	TL-100, TL-500, TL-5500 (Denotes 1-gallon size, 5-gallon size, 55-gallon drum size)
Product Use	A penetrating concrete and masonry integrity fortifier designed to strengthen, protect, and preserve porous substrates.
Responsible Party	TopKote Manufacturing
Information Phone	914-313-2146
Email	contact@topkote.com
Website	https://www.top-kote.com
Emergency Contact	Business Hours (EST): 914-313-2146 After Hours: Contact local Poison Control Center or seek medical attention as appropriate.

SECTION 2: HAZARD(S) IDENTIFICATION

Hazard Category	Signal Word	Hazard Statement	Symbol
0 Non-Hazardous		No known significant hazards. Product is classified as non-hazardous under normal use conditions.	None

Prevention	Response	Storage	Disposal
P234 Keep in original container. P102 Keep out of the reach of children.	To maintain product identity.	P410+P412 Protect from sunlight. Store at temperature not exceeding 90F.	P501 Dispose of contents/container in accordance with local/regional regulation.

Specific chemical identity and/or percentages of composition may be withheld as a trade secret where applicable.

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

Hazardous Components / Chemical Identity	CAS Number	Concentration	OSHA PEL	ACGIH TLV
No hazardous components to report.	N/A	N/A	N/A	N/A

Specific chemical identity and/or percentages of composition has been withheld as a trade secret.

SECTION 4: FIRST-AID MEASURES

Overview	Specific chemical identity and/or percentages of composition has been withheld as a trade secret.
Prevention	P261 Avoid breathing spray mist. Use low pressure pump sprayer. P280 Wear protective gloves/protective clothing/eye protection.
Response	P304+P340 If inhaled: Move victim to fresh air and keep in a comfortable position for breathing. P303+P361+P353 If on skin/hair: Take off contaminated clothing. Rinse skin with water/shower. P363 Wash contaminated clothing before reuse. P333+P313 If skin irritation occurs: Get medical advice/attention. P301+P312 If swallowed: Call a Poison Control Center or doctor/physician if you feel unwell. P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
Storage	P410+P412 Protect from sunlight. Store at temperature not exceeding 90F. Do not store below 40F.
Disposal	P501 Dispose of contents/container in accordance with local/regional regulations.

SECTION 5: FIRE-FIGHTING MEASURES

Under normal conditions of use, this product will not cause a fire. If a fire occurs, use control measures for surrounding materials.

SECTION 6: ACCIDENTAL RELEASE MEASURES

P234 Keep only in original container.
P273 Avoid release to environment.
Wear protective clothing as good hygiene practice.
P285 In case of inadequate ventilation, wear respiratory protection if spray mist is present.
P391 Collect spillage. In case of a large spill, dam the area, collect spill, and place in appropriate container.
P501 Dispose of contents/container in accordance with local/regional regulations.

SECTION 7: HANDLING AND STORAGE

P280 Wear protective gloves/protective clothing/eye protection.
P285 In case of inadequate ventilation, wear respiratory protection.
P102 Keep out of the reach of children.
P261 Avoid breathing spray mist. Use low pressure pump sprayer.
P410+P412 Protect from sunlight. Store at temperature not exceeding 90F. Do not store below 40F.
P501 Dispose of contents/container in accordance with local/regional regulations.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

P280 Wear protective gloves/protective clothing/eye protection.
As good hygiene practice dictates.

Hazardous Components: No hazardous components to report.
OSHA PEL / ACGIH TLV: N/A
Specific chemical identity and/or percentages of composition has been withheld as a trade secret.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Solids: 10.5%
Appearance: Liquid, translucent, milky
Odor: Slight
Vapor Threshold: N/A
pH: 6.8
Melting Point/Freezing Point: 32 deg F
Initial Boiling Point/Boiling Range: N/A
Flash Point: N/A
Evaporation Rate: Same as water
Flammability: No, liquid
Upper/Lower Flammability or Explosive Limits: N/A
Vapor Pressure: N/A
Vapor Density: N/A
Relative Density: Water like
Solubility: Yes, in water
Partition Coefficient: N/A
Auto-Ignition Temperature: N/A
Decomposition Temperature: N/A
V.O.C. as per EPA Method 24: 5.9 g/L

SECTION 10: STABILITY AND REACTIVITY

Reactivity:

Mixing with alkali and acids will cause flocculation of resins.

Chemical Stability:

Under normal conditions of use and storage, this product is stable.

No stabilizers are needed to maintain this product.

There are no safety issues that may arise should the product change in appearance.

Other:

Hazardous polymerization will not occur.

Do not mix this product with any acid, alkali, or hypochlorite product.

Incompatible Materials:

Acid materials

Alkali materials

Materials containing hypochlorite (bleach)

Hazardous Decomposition Products:

None known.

SECTION 11: TOXICOLOGICAL INFORMATION

Main ingredient is inert. There is a low hazard for usual industrial or commercial handling.

No toxicological information is available at this time.

SECTION 12: ECOLOGICAL INFORMATION

This product is considered safe.

Main ingredient is inert. There is a low hazard for ecological contamination.

SECTION 13: DISPOSAL CONSIDERATIONS

P501 Dispose of contents/container in accordance with local/regional regulation.

SECTION 14: TRANSPORT INFORMATION

Class 55: Non-Hazardous

SECTION 15: REGULATORY INFORMATION

DOT (USA) STATUS: Not regulated

TDG (CANADA) STATUS: Not regulated

AIR - INTERNATIONAL CIVIL AVIATION ORGANIZATION ICAO - ICAO STATUS: Not regulated

SEA - INTERNATIONAL MARITIME DANGEROUS GOODS (IMDG) - IMDG STATUS: Not regulated

U.S. Toxic Substances Control Act (TSCA): All components of this product are either listed on the U.S. Toxic Substances Control Act (TSCA) inventory of chemicals or are otherwise compliant with TSCA regulations.

U.S. CERCLA-SARA: SARA Title III Section 312 Hazard Category (40 CFR311/312): Not Hazardous

OSHA HAZARDOUS CHEMICAL(S): None

SECTION 16: OTHER INFORMATION

The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of this data or the results obtained from the use thereof.

TopKote assumes no responsibility for injury to the purchaser, user, or third party proximately caused by this material if reasonable safety procedures are not adhered to as stipulated in the Safety Data Sheet. Additionally, TopKote assumes no responsibility for injury to the purchaser, user, or third party proximately caused by abnormal use of the material even if reasonable safety procedures are followed. The user assumes the risk in the use of this material.

This document has been prepared in accordance with the SDS OSHA Hazard Communication Standard 29 CFR 1910.1200. The standard should be consulted for specific requirements.
